

Introducing Zradical, formulated as a bio therapeutic category creator. Combining the best of nature and science, this powerful blend provides unmatched immune support, healthy cardiovascular function, brain clarity, and joint maintenance. All in a great tasting liquid blend the whole family will enjoy.

Fucoidan (pronounced like "few koy done") is a sulfated polysaccharide and has long been recognized as a key to healthy long lives. It has been used for centuries as a medicine or dietary element in Japan, South America, and Europe. Found in sea plants, our fucoidan comes from plants harvested from the extreme northern and southern hemispheres where the ocean is the coldest and purest in the world. Under these conditions, fucoidan acts as the immune system for the sea plant. Consumed daily, it acts the same for our immune system.

Harvesting—trained divers harvest the sea plants just after the sporophyll are released and fucoidan content is at its peak. The plant is cut above the holdfast (root system) insuring environmental responsibility.

Extraction—pure natural fucoidan is the result of a proprietary patented cold water vacuum extraction process that preserves the fucoidan molecules exactly as they are in the live plant. We get the same nutritional benefits as eating sea plants, but are able to enjoy a wonderfully refreshing drink to our health.

Science—using ingredients with over 700 published scientific studies supporting healthy cell function, cardiovascular health, joint support, brain function, anti-inflammatory, and the list goes on. Preservative free.

Stress management—Every bottle of Zradical has substantial levels of B Vitamins and other ingredients designed to help our bodies effectively deal with the stress.
